

We are pleased to recommend the LOMDEI program to our Principals and teachers. The program provides a full library of ready to use Limudei Kodesh skill building assessments which tracks student progress through self-marking, and provides reporting to teachers in real time.

Developed by Rabbi Dovid Kestenbaum and Mr. Raphael Alter, LOMDEI is a simple, powerful, universal platform that empowers teachers to share & create Limudei Kodesh content with their students whether in class and especially remotely.

LOMDEI continues to add ready to use content for teachers on a daily basis. These areas include Chumash, Mishna, Gemara, Yedios Klalios, Dinim, Navi, Yomin Tovim etc. Teachers can either use the already created assessment questions to send to students, or can easily modify the assessment questions to fit their own unique teaching style.

During this difficult period, when home-schooling is prevalent, LOMDEI is being offered free of charge to internet-based users. It is expected to be offered next year on an offline basis as well.

We highly recommend LOMDEI as a valuable online educational resource, especially at this difficult time.

More information can be found at lomdei.com or by contacting Raphael Alter directly at ralph@lomdei.com
